ABOUT ME

Experienced electrician specializing in electrical fault diagnosis; maintenance and repair of motors, generators, transformers, and related equipment; and installation of power and lighting systems. Provides high-quality electrical maintenance and installation services for residential and commercial clients. Proficient in performing electrical testing and commissioning of circuits and control panels. Over 10 years of experience with a strong focus on continuous professional development and applying technical expertise in complex projects.

WORK EXPERIENCE

HA Elektrotechnik

City: Frankfurt | **Country:** Germany

[01/06/2026 – Current]

Electrical Installation Technician (Construction Projects)

- Assisted in the installation, assembly, and connection of cable trays, conduits, distribution boards, and electrical infrastructure systems.
- Read and interpreted electrical drawings, wiring diagrams, and construction documents to ensure accurate installation work.
- Supported the installation and termination of electrical cables for lighting, power distribution, and building services systems.
- Performed cable pulling, cable dressing, labeling, and routing while maintaining high standards of workmanship and site safety.

ADM Elektro

City: Frankfurt | **Country:** Germany

[01/02/2026 – 01/06/2026]

Electrician

- Performed installation, maintenance, troubleshooting, and repair of electrical systems, including wiring, lighting systems, control panels, and submersible pumps in residential and commercial facilities, ensuring compliance with applicable electrical codes and safety standards.
- Diagnosed electrical faults using appropriate testing equipment and carried out repairs efficiently to minimize downtime and ensure system reliability.
- Provided guidance and on-the-job training to junior technicians, promoting best practices, technical competence, workplace safety, and quality workmanship.

Gözde Electricity Coil Winding

City: Fethiye Mugla | **Country:** Türkiye

[01/02/2017 – 15/06/2025]

Senior Electrician Technician

- Installed, repaired, and maintained electrical systems—including wiring, lighting, and submersible pumps—in residential and commercial buildings, ensuring full compliance with electrical and safety regulations.
- Actively participated in emergency response teams during power outages and critical situations, demonstrating strong problem-solving and decision-making skills under pressure.
- Diagnosed faults in electrical systems and carried out the necessary repairs efficiently and safely.
- Served as the main point of contact between clients and the company, delivering excellent customer service by answering inquiries, explaining electrical issues clearly, and providing transparent solutions.

- Conducted comprehensive testing and inspections of electrical equipment and systems to ensure optimal performance and adherence to safety standards.
- Mentored junior technicians, sharing technical knowledge and best practices to promote safe, efficient, and high-quality workmanship.

Freelance

City: Fethiye Mugla | **Country:** Türkiye

[01/09/2012 – Current] **Electrician**

- Conducted detailed inspections and condition assessments of electrical installations, identified faults, and carried out corrective actions to minimize system downtime. Interpreted electrical drawings, wiring diagrams, and technical schematics to ensure accurate installation, modification, and commissioning in accordance with project specifications.
- Managed and executed upgrade and retrofit projects aimed at improving system efficiency, operational reliability, and energy performance, in line with modern electrical standards.
- Strictly complied with health, safety, and environmental (HSE) requirements and consistently worked in accordance with applicable local and national electrical regulations, ensuring a safe and compliant working environment.
